From the mind of *New York Times* #1 best-selling author Neil Gaiman comes a new world filled with dreams, nightmares and wonderful characters living together in a shared universe for a new story unlike anything we've ever seen before.

A rift between worlds has opened, revealing a space beyond the Dreaming. Meanwhile, a book from Lucien's library is discovered by a group of children in the waking world where it should not exist. Lucien calls for Matthew the Raven to seek out their master, Daniel, Lord of Dreams.

As Matthew flies across the Waking World and others, he finds a young boy named Timothy Hunter who, in his dreams, has become the world's most powerful magician–but in his nightmares he is the world's greatest villain. A new House has appeared in the realm of the Dreaming: the House of Whispers, with its proprietor, a fortune-teller called Erzulie. And elsewhere, Lucifer has fallen again, only this time he might be trapped in a Hell of his own design.

Spiraling out of this special issue will be four all-new series set in the Sandman Universe. It all starts here!

BATMAN #52-53

written by
TOM KING

art and covers by
LEE WEEKS

variant covers by
OLIVIER COIPEL

"Cold Days" continues! The jury in the Mr. Freeze trial is hopelessly deadlocked because one man won't vote guilty–and that man is Bruce Wayne. Freeze's defense is that Batman used excessive force, making his arrest illegal, and Bruce is the one man who actually knows for sure what went down between Batman and his ice-cold nemesis. And if Bruce is right, that means everything he's devoted himself to as the Caped Crusader is a lie; he is hurting more than helping. With Dick Grayson putting the Batsuit back on to keep Gotham City safe while Bruce is sequestered, could this be the out Bruce needs to discard the cape and cowl forever?

The Eisner Award-nominated team of Tom King and Lee Weeks reexamine the relationship between hero and foe, as Batman relives not just that one violent night when he took down the King of Cold, but every time the two have come to blows.

It's the grand finale of "Harley vs. Apokolips"! Harley's trapped on Darkseid's homeworld, having failed to become a Female Fury under Granny Goodness' tutelage. Trapped in a "reeducation chamber" that threatens to destroy her free will, Harley must dig deep to throw off the alien shackles and get back to Earth. She just needs to escape a super-max alien prison, fight off a planet full of super-powered psychos, defeat a New God, then steal a spaceship and fly it home. No problem-o!

Being stuck on an alien planet for months has really messed with Harley's finances–she's gotta become a working stiff again just to pay off all the bills she racked up while on Apokolips! And not only is the city threatening to demolish her Coney Island apartment building if she doesn't pay up, she's helping failed Fury Petite Tina to adjust to life on Earth, which ain't cheap. Sounds like it's time for the ramen diet!
